(1) Subject to the provisions of this section and to the following provisions of this Act, permission shall be required under this Part for any development or subdivision of land that is carried out after the appointed day.

(2) The provisions of this Part, in so far as they relate to development, shall apply only—

(a) in areas in respect of which there is an order, made under the provisions of this Act, to prepare a development plan; and

(3) In this Act, “subdivision”, in relation to land, means the division of any holding of land into two or more parts, whether the subdivision is effected for purposes of conveyance, transfer, partition, sale, gift, lease, mortgage or any other purpose, and “subdivide” has a corresponding meaning.
(4) In this Act, 'development' means the carrying out of any building, rebuilding or other works or operations on or under land, or the making of any material changes in the use of land or buildings but shall not include—

(a) changes of use of land or buildings where the existing and the proposed uses both fall within the same group of land or building uses which may be prescribed;

(c) the construction of roads in an area not subject to a development plan or approved development plan, in respect of which the Director of Roads is the highway authority;

(d) the carrying out by a highway authority of any works required for the maintenance or improvement of a road, being works carried out on land within the boundaries of a road or road reserve;

(e) the carrying out by any local authority or any statutory undertaker of any works for the purpose of constructing, inspecting, repairing or renewing any sewers, drains, pipes, cables, rails or such other apparatus as may be prescribed;

(f) the construction or use other than for human habitation of any building or the use of any land within the curtilage of a dwelling-house for any purpose incidental to the enjoyment of the dwelling-house as such;

(g) the use of any land for the purpose of mining or agriculture, including the erection and use of buildings for such mining or agricultural purposes, but excluding the siting of buildings within nine hundred and fifteen metres from the centre line of any road or proposed road;

(h) the erection of temporary buildings required in connection with any development for which planning consent has been given, for a period not exceeding twelve months or for such longer period as the Minister or the planning authority may permit;

(i) the construction and maintenance of roadways, paths, standings and similar paved areas within a holding, or within any public open space;

(j) development outside a development plan area in any of the following, namely, forest reserves protected forest areas and game reserves, but excluding the siting of buildings within nine hundred and fifteen metres from the centre line of any road or proposed road;

(k) any other operation which may be prescribed.

25. Development or subdivision orders

(1) The Minister shall by order provide for the grant of permission for the development and subdivision of land under this Part, and such permission may be granted—

(a) in the case of any development or subdivision specified in any such order, or in the case of development of any class so specified, by that order itself;

(b) in any other case, by the Minister on an application in that behalf made to him in accordance with the provisions of the order.

(2) Subject to subsection (4), the permission granted by any development or subdivision order may be granted either unconditionally or subject to such conditions or limitations as may be specified in such order.
(3) Without restricting the generality of subsection (2), a development order that grants permission for any development may—

(a) where permission is thereby granted for the erection, extension or alteration of any buildings, require the approval of the Minister to be obtained with respect to the external design, appearance or materials used;

(b) where permission is thereby granted for development of any specified class, enable the Minister to direct that the permission shall not apply either in relation to development in any particular area or in relation to any particular development.

(4) The Minister may, in any subdivision order in respect of land situated outside the area of a development plan or approved development plan, grant permission—

(a) for residential purposes or purposes ancillary thereto:
   Provided that—
   (i) no subdivision shall be less than twenty-five acres in extent;
   (ii) a condition that there shall be no further subdivision of the subdivision is stipulated by him in the approval;
   (iii) the land to be subdivided is not considered by the Natural Resources Board to be of high agricultural value;
   (iv) no installation of public services at the expense of the Government becomes necessary as a result of the subdivision or subdivisions;

(b) for other purposes provided that he considers that approval will be in the best interests of Zambia.

[As amended by S.I. No. 65 of 1965]

24. Delegation to planning authorities

(1) The Minister may by instrument in writing and subject to such conditions, directions, reservations and restrictions as he thinks fit, delegate to any planning authority his functions under subsections (1) and (2) of section twenty-five relating to the grant or refusal of permission to develop or subdivide land:

Provided that—

(i) the said functions of the Minister shall be delegated to the appropriate planning authority set out in the First Schedule when any development or subdivision order is made affecting any of the areas set out in the First Schedule and such delegation shall not be made subject to any conditions, directions or reservations;

(ii) in respect of subdivision for agricultural purposes of agricultural land situated outside areas subject to a development plan or approved development plan, the Minister shall, when any subdivision order is made affecting any area, delegate the said functions to the Natural Resources Board in respect of that area.

(2) Without restricting the generality of subsection (1), the Minister may make provision in any instrument of delegation for transferring to any planning authority to whom functions are delegated in accordance with this section any liability to pay compensation under this Act in respect of anything done by that planning authority in the exercise of functions delegated to it as aforesaid:
Provided that when the Minister delegates under subsection (1) any of his functions to any of the planning authorities referred to in the First Schedule, he shall make provision in the instrument of delegation for transferring to such planning authority the said liability to pay compensation.

25. Application for planning permission

(1) Subject to the provisions of this section, where application is made to the Minister or planning authority to whom functions have been delegated under section twenty-four for permission to develop or subdivide land, the Minister or planning authority may grant permission either unconditionally or subject to such conditions as he thinks fit, or may refuse permission and, in dealing with any such application, the Minister or said planning authority shall have regard to the provisions of the development plan or approved development plan, if any, so far as material thereto, and to any other material considerations:

Provided that the granting of any such permission shall, in respect of the subdivision of land, other than the subdivision for agricultural purposes of agricultural land, situated outside areas subject to a development plan or approved development plan, be subject to the provisions of subsection (4) of section twenty-three which shall apply mutatis mutandis to any such permission.

(2) Without restricting the generality of subsection (1), conditions may be imposed on the grant of permission to develop or subdivide land thereunder—

(a) for regulating the development, subdivision or use of any land or requiring the carrying out of works on any such land, so far as appears to the Minister or planning authority to be expedient for the purpose of or in connection with the development or subdivision authorised by the permission;

(b) for requiring the removal of any buildings or works authorised by the permission, or the discontinuance of any use of land so authorised, at the expiration of a specified period, and the carrying out of any works required for the reinstatement of land at the expiration of that period.

(3) Provision may be made by a development or subdivision order for regulating the manner in which applications for permission to develop or subdivide land are to be made to, and dealt with by the Minister or planning authority and in particular—

(a) for requiring the planning authority, before granting or refusing permission for any development or subdivision, to consult with such authorities or persons as may be specified by the order or by directions given by the Minister thereunder;

(b) for requiring the planning authority to give any applicant for permission, within such time as may be specified by the order, such notice as may be so specified as to the manner in which his application has been dealt with;

(c) for requiring the planning authority to furnish to the Minister, and to such other persons as may be specified by or under the order, such information as may be so specified with respect to applications for permission made to it, including information as to the manner in which any such application has been dealt with.

(4) The Minister and planning authority, as the case may be, shall keep, in such manner as may be specified by the appropriate development order, a register containing such information as may be specified in the said development order with respect to applications for permission made to the Minister or planning authority, including information as to the manner in which such applications have been dealt with; and every such register shall be made available for inspection by the public during normal hours of official business at such place as the Minister may direct.
26. **Additional powers of Minister to give directions to any planning authority**

(1) The Minister may give directions to any planning authority to whom functions have been delegated under section twenty-four that any application made to that authority for permission to develop or subdivide land, or all such applications of any class specified in the directions, shall be referred to the Minister instead of being dealt with by the planning authority, and any such application shall be so referred accordingly.

(2) Where an application for permission to develop or subdivide land is referred to the Minister under this section, subsections (1) and (2) of section twenty-five shall apply, subject to any necessary modifications in relation to the determination of the application by the Minister as they apply in relation to the determination of such an application by the planning authority.

(3) If the Minister, after consultation with a planning authority to whom functions have been delegated under section twenty-four, considers that the said planning authority has granted permission to any person to develop or subdivide land in a manner which is contrary to the provisions of an approved development plan, he may, not later than two years from the date of the granting of such permission, direct the said planning authority to cancel such permission and the planning authority so directed shall comply with the directions so given.

(4) Where any permission is cancelled under the provisions of subsection (3), the person to whom permission was granted shall be entitled to claim compensation from the planning authority in respect of any expenditure incurred by him in carrying out work that is rendered abortive by the cancellation of such permission and in respect of any other loss or damage which is directly attributable to the cancellation of such permission, and the planning authority shall pay compensation to such person in respect of any such expenditure, loss or damage.

27. **Supplementary provisions re grants of planning permission**

(1) The power to grant permission to develop or subdivide land under this Part shall include power to grant permission for the retention on land of any buildings or works constructed or carried out thereon before the date of the application for such permission, or for the continuance of any use of land instituted before that date (whether without permission granted under this Part or in accordance with permission so granted for a limited period only); and reference in this Part to permission to develop or subdivide land or to carry out any development of land, and to applications for such permission, shall be construed accordingly.

(2) Any such permission as is mentioned in subsection (1) may be granted so as to take effect from the date on which the buildings or works were constructed or carried out, or the use was instituted, or from the expiration of the said period, as the case may be.

(3) Where permission is granted under this Part for the erection of a building, the grant of permission shall specify the purposes for which the building may be used.

(4) Where permission to develop land is granted under this Part for a limited period only, nothing in this Part shall be construed as requiring permission to be obtained thereunder for the resumption, at the expiration of that period, of the use of the land for the purpose for which it was normally used before the permission was granted.

(5) In determining for the purposes of subsection (4) the purposes for which land was normally used before the grant of permission, no account shall be taken of any use of the land begun in contravention of the provisions of this Part.
28. **Supplementary provisions re grant of permission to subdivide**

(1) For the avoidance of doubt it is hereby declared that, on receipt of an application for subdivision made under the provisions of section twenty-five, the Minister or planning authority to whom functions have been delegated under section twenty-four may—

(a) demand further information from the applicant; or

(b) demand that public notice inviting objection to the application within a specified time and in a prescribed form shall be given at the cost of the applicant; or

(c) approve the application subject to such written conditions as is deemed fit to impose in accordance with the Third Schedule, and any person developing the land pursuant to such approval shall comply with all conditions so imposed; or

(d) approve the application in principle and require a detailed application to be submitted in terms of subsection (5); or

(e) reject the application and state the reasons for the rejection.

(2) If, within a period of ninety days after receipt of an application for subdivision, the Minister or the planning authority, as the case may be, has failed to serve a notice on the applicant as to how the application has been dealt with under the provisions of subsection (1), then the application shall be deemed to have been approved by a decision of the appropriate authority.

(3) Where a detailed application is required under the provisions of this section, the Minister or planning authority shall notify the applicant of such matters listed in the Third Schedule which are to be included in the detailed application.

(4) On receipt of a detailed application, the Minister or planning authority shall approve the application absolutely or subject to such modifications, amendments and conditions as he deems fit to impose in accordance with the Third Schedule, and any person developing the land pursuant to such approval shall comply with such conditions.

(5) If no detailed application is received within six months of the date on which notification was given under subsection (3), or within such further period of time as the Minister or planning authority may agree in writing prior to the expiration of the said period of six months, the application shall be deemed to be withdrawn and the approval in principle granted under subsection (1) shall be deemed to be cancelled.

(6) Where an application has been approved but the records of the subdivisional survey required by subsection (1) of section ten and section twenty-one of the Land Survey Act are not lodged with the Surveyor-General within the period stated in the approval, such approval shall be deemed to be cancelled:

Provided that the Minister or the planning authority, on application by the owner of the land, may extend the said period prior to its expiration where considered necessary.

[Cap. 188]

29. **Additional provisions for appeal to Tribunal**

(1) Where application is made under this Part to the Minister or planning authority to whom functions have been delegated under section twenty-four for permission to develop or subdivide land, or for any approval of that planning authority required under a development order or subdivision order, and that permission or approval is refused by the Minister or planning authority, or is granted subject to conditions, then, if the applicant is aggrieved by the decision, he may,
within twenty-eight days from the receipt of notification of the decision or such longer period as the Tribunal in writing may agree, and in the manner prescribed, appeal to the Tribunal.

(2) Any person, other than an applicant, or any local or township authority who is dissatisfied with any decision made by the Minister or a planning authority to whom functions have been delegated under section twenty-four in connection with an application for permission to develop or subdivide land, may, within twenty-eight days from the making of such decision or such longer period as the Tribunal in writing may agree, and in the manner prescribed, appeal to the Tribunal.

(3) Notwithstanding the provisions of subsection (1) or (2), the Tribunal shall not be required to entertain an appeal under the said subsection (1) or (2) in respect of the determination of an application for permission to develop or subdivide land—

(a) if it appears to the president or the vice-president of the Tribunal that permission for that development or subdivision could not have been granted otherwise than subject to the conditions imposed, having regard to the provisions of section twenty-five and of the appropriate development order or subdivision order and to any directions given under such order; or

(b) if the Minister has certified at the time of making the decision, or, if the decision is that of a planning authority to whom functions have been delegated under section twenty-four, the Minister has certified, within seven days of the making of such decision, that such decision is in the national interest.

[As amended by No. 25 of 1962, No. 28 of 1964 and No. 16 of 1965]

30. Revocation and modification of planning permission by the Minister

(1) Subject to the provisions of this section, if it appears to the Minister or planning authority to whom functions have been delegated under section twenty-four that it is expedient, having regard to the development plan or approved development plan and to any other material considerations, that any permission to develop or subdivide land granted by a development or subdivision order or on an application made in that behalf under this Part should be revoked or modified, he may by order revoke or modify the permission to such extent as appears to him to be expedient as aforesaid.

(2) The power conferred by this section to revoke or modify permission to develop or subdivide land may be exercised—

(a) where the permission relates to the carrying out of building or other operations, at any time before those operations have been completed;

(b) where the permission relates to a change of the use of any land, at any time before the change has taken place:

Provided that the revocation or modification of permission for the carrying out of building or other operations shall not affect so much of those operations as has been previously carried out.

(3) Where permission to develop or subdivide land is revoked or modified by an order made under this section, then if, on a claim made to the Minister or planning authority within six months of the making of the order, it is shown that any person interested in the land has incurred expenditure in carrying out work that is rendered abortive by the revocation or modification, or has otherwise sustained loss or damage that is directly attributable to the revocation or modification, the Minister or planning authority shall pay to that person compensation in respect of that expenditure, loss or damage.

(4) For the purposes of this section, any expenditure incurred in the preparation of plans for the purposes of any work or upon other similar matters preparatory thereto shall be deemed to be included in the expenditure incurred in carrying out that work, but except as aforesaid no compensation shall be paid under this section in respect of any work carried out before the grant of the permission that is revoked or modified, or in respect of any other loss or damage (not
being loss or damage consisting of the depreciation in value of an interest in land) arising out of anything done or omitted to be done before the grant of that permission.

(5) Where permission for the development of land granted by a development or subdivision order has been withdrawn, whether by the revocation or modification of the order or by the issue of directions under powers in that behalf conferred by the order, then if, on an application made in that behalf under this Part, permission for that development is refused or is granted subject to conditions other than those previously imposed by the development or subdivision order, the foregoing provisions of this section shall apply as if the permission granted under this Part by the Minister or planning authority had been revoked or modified by an order made under this section.

(6) Where the permission that is revoked or modified by an order under this section is permission for which compensation would be payable under Part VI in the circumstances therein mentioned, the provisions of sections thirty-five and thirty-nine shall apply as if for references in section thirty-five to the refusal of the permission or the imposition of conditions on the grant thereof were substituted references to the revocation of permission or the modification thereof by the imposition of conditions, and subsection (1) of section thirty-five shall have effect as if for the words 'if the permission had been granted or had been granted unconditionally' there were substituted the words 'if the permission had not been revoked or had not been modified'.

(7) Where, by virtue of the provisions of this section, compensation is payable in respect of expenditure incurred in carrying out any work on land, then if the President or the local or township authority purchases any interest in that land, or a claim for compensation is made in respect of any such interest under section thirty-five, any compensation payable in respect of the acquisition of that interest or, as the case may be, any compensation payable in respect of the interest under section thirty-five, shall be reduced by an amount equal to the value of the works in respect of which compensation is payable under this section.

[As amended by S.I. No. 65 of 1965]

31. Enforcement of planning control

(1) If it appears to the Minister or planning authority to whom functions have been delegated under section twenty-four that any development or subdivision of land has been carried out after the appointed day without the grant of permission required in that behalf under this Part, or that any conditions subject to which such permission was granted in respect of any development or subdivision have not been complied with, then the Minister or planning authority may, within four years of such development being carried out, or, in case of non-compliance with a condition, within four years after the date of the alleged failure to comply with it, if he considers it expedient so to do having regard to the provisions of the appropriate development plan or approved development plan, if any, and to any other material considerations, serve on the owner and occupier of the land a notice (hereinafter called an enforcement notice) under this section.

(2) If it appears to the Minister or planning authority to whom functions have been delegated under section twenty-four that—

(a) any use of land should be discontinued or that any conditions should be imposed on the continuance thereof; or

(b) that any buildings or works should be altered or removed;

then the Minister or planning authority may by an enforcement notice served on the owner and occupier require the discontinuance of that use, or impose such conditions as may be specified in that notice on the continuance thereof or require such steps as may be specified to be taken for the alteration or removal of the building or works, as the case may be:

Provided that no such enforcement notice shall be served on an owner or occupier by a planning authority, other than any authority specified in the First Schedule, unless and until the Minister shall have approved such enforcement notice.
(3) Any enforcement notice served under subsection (1) shall specify the development or subdivision that is alleged to have been carried out without the grant of such permission as aforesaid or, as the case may be, the matters in respect of which it is alleged that any such conditions as aforesaid have not been complied with, and may require such steps as may be specified in the notice to be taken within such period as may be so specified for restoring the land to its condition before the development or subdivision took place, or for securing compliance with the conditions, as the case may be; and in particular any such notice may for the purpose aforesaid require the demolition or alteration of any buildings or works, the discontinuance of any use of land or the carrying out on land of any building or other operations.

(4) Except as otherwise provided in this section, an enforcement notice shall take effect at the expiration of such period (not being less than twenty-eight days after the service thereof) as may be specified therein.

(5) When, within the period mentioned in subsection (4), an appeal is made to the Tribunal under this section by a person on whom the enforcement notice was served, the operation of the enforcement notice shall be suspended pending the final determination or withdrawal of the appeal.

(6) If any person on whom an enforcement notice is served under subsection (1) is aggrieved by the enforcement notice, he may, at any time within the period mentioned in subsection (4), appeal against the enforcement notice to the Tribunal; and on any such appeal the Tribunal—

(a) if satisfied that permission was granted under this Part for the development to which the enforcement notice relates, or that no such permission was required in respect thereof, or, as the case may be, that the conditions subject to which such permission was granted have been complied with, shall quash the enforcement notice to which the appeal relates;

(b) in any other case shall dismiss the appeal.

(7) If any person on whom an enforcement notice is served under subsection (2) is aggrieved by the enforcement notice, he may, at any time within the period mentioned in subsection (4), appeal against the enforcement notice to the Tribunal, and the Tribunal may in respect of such enforcement notice make any order which it is empowered to make under the provision of section eleven.

(8) Where the enforcement notice is varied or the appeal is dismissed, then, subject to paragraph (a) of subsection (6), the Tribunal may, if it thinks fit, direct that the enforcement notice shall not come into force until such date (not being later than twenty-eight days from the determination of the appeal) as the Tribunal thinks fit.

(9) The Minister and planning authority, as the case may be, shall keep in such manner as may be specified a register of every enforcement notice which has been served under the provisions of this section; and every such register shall be made available for inspection by the public during normal hours of official business at such place as the Minister may direct.

32. Supplementary provisions as to enforcement including penalties

(1) If within the period specified in an enforcement notice made under subsection (1) of section thirty-one, or within such extended period as the Minister or planning authority to whom functions have been delegated under section twenty-four may allow, any steps required by the enforcement notice to be taken (other than the discontinuance of any use of land) have not been taken, the Minister or planning authority may enter on the land and take those steps, and may recover as a civil debt in any court of competent jurisdiction from the person who is then the owner of the land any expenses reasonably incurred by the Minister or planning authority in that behalf; and if that person, having been entitled to appeal to the Tribunal, failed to make such an appeal, he shall not be entitled in proceedings under this subsection to dispute the validity of the action taken by the Minister or planning authority upon any ground that could have been raised by such an appeal.
(2) Where, by virtue of an enforcement notice, any use of land is required to be discontinued, or any conditions are required to be complied with in respect of any use of land or in respect of the carrying out of any operations thereon, then if any person, without the grant of permission in that behalf under this Part, uses the land or causes or permits the land to be used, or carries out or causes or permits to be carried out those operations, in contravention of the enforcement notice, he shall be guilty of an offence and liable on summary conviction to a fine not exceeding fifteen thousand penalty units and, in case of a continuing offence, to a further fine not exceeding one hundred and fifty penalty units for every day after the first day during which the use is so continued.

[As amended by No. 13 of 1994]

33. Repeated operation of enforcement notices

(1) Compliance with an enforcement notice, whether as respects—

(a) the demolition or alteration of any buildings or works; or
(b) the discontinuance of any use of land; or
(c) any other requirements in the enforcement notice;

shall not discharge the enforcement notice.

(2) Without restricting the generality of subsection (1), where any development is carried out on land by way of reinstating or restoring buildings or works that have been demolished or altered in compliance with an enforcement notice, the enforcement notice shall, notwithstanding that its terms are not apt for the purpose, be deemed to apply in relation to the buildings or works as reinstated or restored as it applied in relation to the buildings or works before they were demolished or altered and subsections (1) and (2) of section thirty-two shall apply accordingly.

Part VI – Compensation for refusal or conditional grant of planning permission

34. Definition of "planning decision"

In this Part, ‘planning decision’ means, in the case of an application for permission made under Part V, a refusal by the Minister or planning authority to whom functions have been delegated under section twenty-four of that permission, or a grant thereof by the Minister or planning authority subject to conditions, or a notice served under the provisions of subsection (2) of section thirty-one.

35. Compensation for planning decision

(1) If, on a claim being made to the Minister or planning authority to whom functions have been delegated under section twenty-four, it is shown that, as a result of a planning decision involving a refusal of permission or a grant thereof subject to conditions, the value of the interest of any person in the land to which the planning decision relates is less than it would have been if the permission had been granted or had been granted unconditionally, then the Minister or planning authority, as the case may be, shall, subject to the provisions of this Part, pay to that person compensation of an amount equal to the difference.

(2) Where an order is made under subsection (2) of section thirty-one requiring any use of land to be discontinued or imposing conditions on the continuance thereof, or requiring any buildings or works on land to be altered or removed, then if, on a claim made to the Minister or the planning authority, as the case may be, it is shown that any person has suffered damage in consequence of the order by the depreciation of any interest in the land to which he is entitled or by being disturbed in his enjoyment of the land, the Minister or planning authority shall pay to that person compensation in respect of that damage.
In determining for the purposes of subsection (1) to what extent, if any, the value of any interest in land is less than it would have been if the permission therein referred to had been granted or had been granted unconditionally, it shall be assumed that any subsequent application for permission in respect of the land would be determined in the same way, except that if, on the refusal of permission for the development in respect of which the application is made, the Minister or planning authority undertakes to grant permission for any other development of the land in the event of an application being made in that behalf, regard shall be had to the undertaking in determining the matter aforesaid.

36. **No compensation payable in certain cases**

(1) Compensation under subsection (1) of section thirty-five shall not be payable—

(a) in respect of the refusal of permission for any development that consists of or includes the making of any material change in the use of any buildings or land;

(b) in respect of the refusal of permission to develop or subdivide land if the reason or one of the reasons for the refusal is, and is stated to be, that development of the kind proposed would be premature by reference to either or both of the following matters, that is to say:

(i) the order of priority, if any, indicated in the development plan for the area in which the land is situated for development in that area;

(ii) any existing deficiency in the provision of roads, water supplies, sewerage or other public services, and the period within which any such deficiency may reasonably be expected to be made good;

(c) in respect of the refusal of permission to develop and subdivide land if the reason or one of the reasons stated for the refusal is that the land is physically unsuitable for the proposed development, or would be prejudicial to natural resources and public health or dangerous to human life;

(d) in respect of the imposition, on the granting of permission to develop and subdivide land, of any condition relating to—

(i) the number or disposition of buildings on any land;

(ii) the dimensions, cost, design, structure or external appearance of any building, or the materials to be used in its construction;

(iii) the manner in which any land is to be laid out for the purposes of the development, including the provision of facilities for the parking, loading or fuelling of vehicles on the land;

(iv) the use of any buildings or land;

(v) the location or design of any means of access to a highway or the materials to be used in the construction thereof;

(vi) the provision of any roads, surface water drainage, water supply or sewerage including sewage disposal plant;

(vii) cash or land endowment;

(viii) the transfer of ownership of lands reserved for the President or the local authority or township authority, as the case may be;

(e) in respect of any planning decision on an application for consent to the display of advertisements;
(f) in respect of the subdivision of land, any condition stipulated under subsection (4) of section twenty-three;

(g) in respect of the refusal to subdivide agricultural land for agricultural purposes where the refusal is on the ground that such subdivision would be uneconomic or would render the holding uneconomic for agricultural purposes;

(h) in respect of the granting of permission subject to conditions to subdivide agricultural land for agricultural purposes.

(2) For the purposes of this section, a planning decision whereby permission to develop or subdivide land is granted subject to a condition prohibiting development or subdivision of a specified portion of that land shall be treated as a decision refusing the permission as respects that portion of the land only.

[As amended by S.I. No. 65 of 1965]

37. No compensation if other development permitted

(1) Compensation under this Part shall not be payable in respect of a planning decision whereby permission is refused for the development or subdivision of land if, notwithstanding that refusal, there is available with respect to that land planning permission for development or subdivision to which this section applies.

(2) Where planning permission for development or subdivision to which this section applies is available with respect to a portion only of the land, this section shall have effect only in so far as the interest subsists in that portion.

(3) Where a claim for compensation under this Part is made in respect of an interest in any land, planning permission for development or subdivision to which this section applies shall be taken for the purposes of this section to be available with respect to that land or a portion thereof if, immediately before the Minister or planning authority gives notice of the findings in respect of that claim, there is in force with respect to that land or a portion thereof a grant of, or an undertaking by the Minister or planning authority to whom functions have been delegated under section twenty-four to grant, planning permission for some such development or subdivision subject to no conditions other than such as are mentioned in paragraph (d) of subsection (1) of section thirty-six.

(4) This section applies to any development of a residential, commercial or industrial character, if the development consists wholly or mainly of the construction of houses, flats, shop or office premises, hotels, garages and petrol filling stations, cinemas, or industrial buildings (including warehouses), or any combination thereof.

38. Exclusion and limitation of compensation in certain other cases

Where any person who is entitled to compensation under this Act is also entitled to compensation under any other Act in respect of the same matter, then such person shall elect whether he will claim compensation under this Act or under the said other Act, and such election shall be a bar to any further claim in respect of the same matter:

Provided that, where a person elects to claim compensation under this Act, he shall not be entitled to receive any greater compensation under this Act than he would have received under the said other Act.

39. General provisions as to claims for compensation

(1) Compensation under this Part shall not be payable unless a claim for it is duly made in accordance with the provisions of this section.
(2) A claim for compensation under this Part shall not have effect unless it is made before the end of the period of six months beginning with the date of the planning decision to which it relates, but the Minister or planning authority to whom functions have been delegated under section twenty-four may, in any particular case (either before, on or after the date on which the time for claiming would otherwise have expired), allow an extended, or further extended, period for making such a claim.
